Addendum 1
Request for Proposal # 21-19-208960
Ruggedized Tablets

Addendum number 1 is issued for Questions.

The Closing Date for this ITB has not changed.

CHANGES: Addendum number 1 has been issued for clarification to the following questions.

1. Will these tablets be connected to a data service? If so, what type of service will that be. I believe you have modems on your trains for wifi service.
 - a. They will be connected by AT&T Cellular, the Alaska Railroad network by Wi-Fi, and wired Ethernet.

2. The RFP does not appear to mention cellular service in it. Will responding with a cellular service data plan disqualify a provider?
 - a. No cellular service is required as that system is already in place for these tablets.

3. Is this proposal only for the GETAC F110?
 - a. This RFP is for GETAC F110 or equal. Many of the requirements in the scope of work list the description as a minimum requirement.
